

## How to do it:

1. Print this page.
2. Check to make sure that you are printing in the standard 8 1/2 x 11 size paper. Your ring sizer should be 3 1/2 inches.
3. Follow the scissor icon to cut out the ring sizer.
4. Wrap the sizer around your ring finger with the number side facing out. Make sure not to pull too tight.
5. Look at the number that is closest to the line. This is your ring size.
